

# Covotek Citrus

Flavouring Palatants for Ruminants

## Description

Covotek Citrus Flavouring palatant is specifically formulated to increase the citrus taste characteristics in animal feeds and have a strong and distinctive aromatic profile.

## Features

- Attractive citrus taste characteristics and a strong, distinctive aromatic profile.
- Manufactured in accordance with ISO Fusion Technology ensuring:
  - ⇒ homogeneous distribution and flow-ability
  - ⇒ micro-encapsulated → stability, uniformity and analytical traceable
  - ⇒ Thermally protected by a retention agent
- Quantitative traceability by high pressure liquid chromatography (HPLC).
- Compliant with EU regulations, free of GMO and animal products and carries FAMI-QS certificate of analysis.
- Registration numbers in accordance with Act 36 of 1947:
  - ⇒ **Covotek Citrus - V 20860**

## Benefits

- More uniform feed intake, improving performance.
- Mask bitter tastes associated with high levels of medications and minerals.
- Enhances feed palatability and stimulates feed intake.
- Accuracy of dosing for consistent quality and performance. Every batch of feed manufactured will therefore be constant in its degree of taste and aromatic profile.
- Permits feed formulation changes without affecting intake patterns.
- Traditional flavours on average exhibit a 25% loss after pelleting. Covotek Citrus flavouring palatants does not.
- Covotek flavouring palatants show a greater stability and low volatility of flavour in feed is compared to traditional flavours.

## Applications

Target Feeds	Inclusion rates
Complete feeds for dairy and sheep Mineral feeds (licks)	100 - 150g/ton 300 - 450g/ton

**Please note that application rates are very much dependent upon raw materials used in feed formulations.**
