

Pan-Tek Spicy Apple

Description

Pan-Tek Spicy Apple flavouring palatant is specifically formulated to improve the taste characteristics in animal feeds and have a strong and distinctive aromatic profile.

Features

- Attractive spicy apple taste characteristics and a strong and distinctive aromatic profile.
- Manufactured in accordance with ISO Fusion Technology ensuring:
 - ⇒ homogeneous distribution and flow-ability
 - ⇒ micro-encapsulated → stability, uniformity and analytical traceable
 - ⇒ thermally protected by a retention agent
- Quantitative traceability by high pressure liquid chromatography (HPLC)
- Compliant with EU regulations, free of GMO and animal products and carries FAMI-QS certificate of analysis.
- Registration numbers in accordance with Act 36 of 1947:
- **Pantek Spicy Apple - V 23977**

Benefits

- More uniform feed intake, improving performance
- Mask bitter tastes associated with high levels of medications and minerals
- Enhances feed palatability and stimulates feed intake
- Accuracy of dosing for consistent quality and performance. Every batch of feed manufactured will therefore be constant in its degree of taste and aromatic profile.
- Permits feed formulation changes without affecting intake patterns
- Very limited loss after the pelleting process.

Applications

Target Feeds	Inclusion rates
Complete feeds for dairy and sheep	100 - 150g/ton
Mineral feeds (licks)	300 - 450g/ton

Please note that application rates are very much dependent upon raw materials used in feed formulations.
