

## Description

TakTik X-IN is a combination of a sweetener (Sucram), flavour (Wintergreen) and a plant extract (Anethole) to enhance both taste and smell of feed, promotes glucose uptake in small intestine and improves gut health of piglets.

## Features

- Multilayer double capsule.
- Manufactured in accordance with ISO Fusion Technology ensuring:
  - ⇒ homogenous distribution and flow-ability
  - ⇒ micro-encapsulated → stable, uniform and analytically traceable
  - ⇒ Thermally protected by a retention agent
- Proven mode of action with the use of sophisticated *in vitro* modelling systems and animal trials.
- Scientific peer reviewed papers, university and commercial trials support the production and animal responses.
- Compliant with EU regulations, free of GMOs and animal products and carries FAMI-QS certificate of analysis.
- Registration numbers in accordance with Act 36 of 1947:
  - ⇒ **TakTik X-IN: V 25845**

## Benefits

- Increase body weight gain
- Improves feed conversion ratio
- Improves group uniformity
- Sucram:
  - Improves the taste in feed.
  - Thus improves feeding behaviour and total feed intake due to the sweetener in the product.
  - Permits feed formulation changes without affecting intake patterns.
  - Improvement of glucose uptake by increasing the number of glucose transporters in the small intestine.
- Wintergreen flavour:
  - Attracts piglets to visit the feeder more often.
- Anethole:
  - Increases gut defence by regulating immune response to infections.
  - Improvement of intestinal development of piglets.
  - Strong anti-oxidative effect.

## Applications

Piglet feed: 100 – 300 g / ton final feed

## Supplier

Pancosma
