

Citrus Farm Pack

Flavouring Palatants for Ruminants

Description

Covotek Citrus is a palatant with a strong citrus aromatic profile specifically developed to increase the taste of ruminant feeds.

Covotek Citrus Farm Pack is a ready to mix combination of Covotek Citrus and carrier, bulked up to a manageable rip and tip pack, specifically designed for the ease of use for on-farm mixing of animal feeds.

Key Features

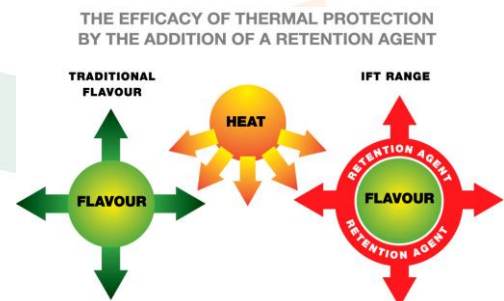

- Covotek Citrus is produced using ISO-Fusion technology.
- Totally homogeneous micro-sized particles, high distribution and flow-ability
- Thermally protected by retention agent.
- Attractive taste characteristics and a strong and distinctive citrus profile.

From heterogeneous to homogeneous

Key Benefits

- Masks bitter tastes.
- Enhances feed palatability & stimulate feed intake.
- More uniform intake → better performance.
- Stable during the pelleting and long lasting flavor effect

Target feeds and inclusion rates

Target Feeds	Inclusion rates
Complete dairy and sheep feeds	1 unit/ton
Mineral feeds (licks)	2-3 units/ton

Covotek Citrus Farm pack is packed in 500g individual units. Each unit consists of 100g Covotek Citrus and 400g carrier.

Please note that application rates are dependent upon raw materials used in feed formulations.
