

A Holistic approach to animal nutrition

Description

Xtract 6930 is a phytonutrient product containing Capsaicin (from chilli peppers), Cinnamaldehyde (from cinnamon) and Carvacrol (from oreganum). This combination acts as a natural supplement to assist in improving animal performance, minimize oxidative and heat stress, improve digestion and boost immunity for a holistic approach to animal production and welfare.

Features

- Manufactured in accordance with ISO Fusion Technology
- The first 100% plant extracts product recognized by the EU commission as a zootechnical additive for broilers
- More than 100 trials (in-house and peer-reviewed) supports the production and animal responses
- Compliant with EU regulations, free of GMO and animal products and carries FAMI-QS certificate of analysis.
- Registration numbers in accordance with Act 36 of 1947:
 - ⇒ **Xtract 6930 - V 20866**

Benefits

- ⇒ Liver health support
 - Helps to improve blood flow through the body, thereby helps to clear toxins from the body
 - Helps to prevent fat accumulation in the liver and improve the usage of fat by the liver, therefore helps to reduce the risk of fatty liver syndrome
 - Strengthens the antioxidant system in the liver, thereby helping to reduce cell damage
 - Helps to reduce the impact of oxidative stress, thereby helping to minimize liver stress and disease
- ⇒ Additional physiological benefits
 - Helps to minimize the impact of heat stress by improving heat dissipation out of the body
 - Improves digestibility of feed, therefore better extraction of energy from diets
 - Improve immunity through reduced inflammation and improved antibody response
 - Improve gut integrity and microflora health
- ⇒ Improvements in performance observed:
 - Improve ADG in broilers and FCR in broilers and layers (when used as part of an AGP free program or on top of AGP's)
 - Positive effect on broiler carcass quality in terms of body weight at slaughter, breast weight, abdominal fat
 - Positive effect on eggshell strength and egg quality characteristics observed
 - Improved sow performance and piglet vitality
 - Transfer to piglets via colostrum and milk, improved performance of piglets

Applications

Diets	Inclusion rates
Broiler feed	100-150 g/ton
Layer/Breeder feed	100-150 g/ton
Pig feed	100-150 g/ton
